JULIAN NELSON

Geospatial Analyst

Arcata, California | (707) 362-6741 | juliannelson747@gmail.com | juliannelson.dev

PROFESSIONAL SUMMARY

Geospatial Science and Technology undergraduate at Cal Poly Humboldt, concentrating in Environmental Science. Broad academic and applied experience in GIS, spatial analysis, environmental data interpretation, mapping, and geospatial technologies, with exposure to federal and California state environmental review processes, including NEPA and CEQA. Expected graduation: Fall 2026.

PROFESSIONAL EXPERIENCE

LACO Associates — Office and Field Support

August 2024 - Present

- Assist engineering and project staff with general project support tasks in a consulting environment.
- Supported daily office operations through equipment and materials handling, workspace organization, document digitization, and general IT assistance, including software and workstation setup.
- Supported engineers and UAV pilots during a field drone survey in Modoc County, CA associated with the Modoc Tribe's land buyback and ongoing restoration project.(June 2025)

HP / 2020 Companies, Eureka, CA — Brand Ambassador

September 2024 – Present

- Communicate technical product information to customers; track inventory and point-of-sale data.
- Coordinate with corporate teams on training, sales reporting, and promotions.

College of the Redwoods, Eureka, CA — Student Worker, Basic Needs Center

March 2023 – June 2024

- Managed deliveries, inventory, student intake documentation, and resource distribution.
- Supported campus outreach, events, and coordination with staff and students.

TECHNICAL SKILLS

- ESRI ArcGIS Pro, QGIS, ENVI
- Proficiency in R, Python, and SQL
- Remote sensing
- Geospatial Databases
- Environmental data interpretation
- Microsoft Office Suite (Word, Excel, etc)
- Environmental Law Fundamentals
- NEPA / CEQA concepts (academic exposure)

CAPSTONE PROJECT

Lower Snake River Dam Removal — GIS Capstone (In Progress)

Cal Poly Humboldt | Fall 2026

- Developing a GIS-based investigation of hypothetical removal of four Lower Snake River dams, examining salmon habitat, river connectivity, and sediment-related conditions.
- Testing terrain derived indicators and Sentinel-2 turbidity indices in a Lower Granite Reservoir pilot analysis.

EDUCATION

California Polytechnic State University, Humboldt — B.S. Geospatial Science & Technology

Environmental Science & Management concentration | August 2024 – Present | Expected graduation Fall 2026

College of the Redwoods — Geospatial Information Systems

January 2023 – June 2024

Butte College — General education coursework

June 2022 – December 2022

California State University, Chico — General education coursework

August 2020 – June 2022

AWARDS & RECOGNITION

President's List — California State University, Chico 2021-2022

Presidents List — California Polytechnic Humboldt, Arcata Fall 2025
